CILAMCE-PANACM-2021 has launched the Watch-Only Participation Category. This category, under reduced registration fee, is available for participants who want access only to the live Plenary Lectures and pre-recorded mini-symposia video presentations. It does not allow to make questions or interact with other participants in these sessions, and does not grant access to the congress social activities (virtual coffee-breaks, virtual cocktail or any social or networking activities). The annual membership to ABMEC (The Brazilian Association for Computational Methods in Engineering) is not included either.
