

Inter-Noise 2024 - CALL FOR ABSTRACTS

The French Acoustical Society (SFA) on behalf of International Institute of Noise Control Engineering (I-INCE) is delighted to announce that the call for abstracts for the 53rd International Congress and Exposition on Noise Control Engineering (Inter-Noise 2024) is open.

You can now submit your abstracts via the official website: <https://internoise2024.org/authors/>

- We look forward to receiving your contribution by February 9, 2024.
- Abstract notification acceptance is scheduled for March 1, 2024.
- Registrations will be open from December 1, 2023, up to April 12, 2024, for authors.

Inter-Noise 2024 will be a good opportunity to share experience and gain valuable exposure within the global community in noise control engineering. **The conference program will be structured to maximize scientific discussions**, including parallel technical sessions and keynotes focused on the core topics of Inter-Noise and on the theme of the congress: *from Jules Verne's world to multi-disciplinary approaches in acoustics & noise control engineering*. Poster sessions will also be proposed with dedicated flash presentations. The industrial exhibition will be organized at the heart of the congress venue, and technical workshops will also be proposed.

We want to make the **Inter-Noise 2024 Congress as accessible as possible by offering the lowest possible registration fees while ensuring French-style conviviality!** A platform for booking accommodation for Inter-Noise 2024 participants at accessible and negotiated prices will also be launched very soon. Registrations will be open on December 2023.

The congress will take place in the city of Nantes, France, on August 25–29, 2024. **Nantes is a fast-growing city on the French Atlantic coast.** With its booming economy and thriving cultural scene, Nantes is one of the new up-and-coming European destinations. Known for its eclectic sights and architecture, as well as its quality of life recognized by the European Green Capital label, Nantes regularly ranks first among the most welcoming cities.
